EBS is providing software management in the nearshore business unit and since the end of 2004, BPO (Business Process Outsourcing), too.

Business Unit Software Management

The software management business unit put at the disposal of the clients resources and management for the Nearshore software production. EBS offers know-how in /.NET/ Microsoft and JAVA/ Open Source.

Business Unit BPO

Business Process Outsourcing regarding the used information systems brings relief in routine tasks. This kind of services are interesting from the economic point of view if they are completely outsourced.

Business Unit ERP development

For the Romanian market, EBS developed and distributed CLARVISION, an ERP for financials, controlling, manufacturing, payroll etc

A 'German-style' Company in Romania

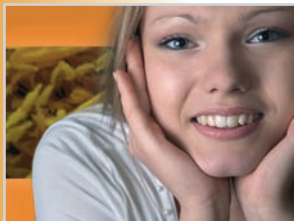

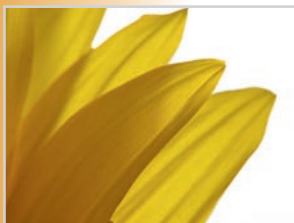

German citizens manage EBS. Nevertheless the company is deeply rooted in the modern Romanian society and able to hire the best Romanian specialists. That is why their products reach western quality standards. The employees have an average age of 30 and at least one university degree in a relevant field of study. The development usually takes place in Cluj-Napoca, where the EBS headquarters is located and in Sibiu, EBS' subsidiary.

Certificates

Since July 2003 EBS is certified according to ISO 9001. EBS is Microsoft Gold Certified Partner.

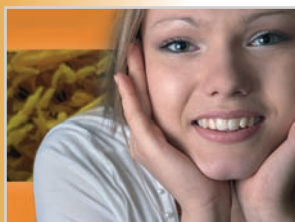

Languages

Business languages of EBS are English and German. We use these languages during the projects, too.
